Leaving town? Don't let your pet suffer while you're away!

Bottled Blessings' **Lonely Cat** is the perfect remedy for your pet's separation anxiety and your peace of mind! Whether you're leaving for the weekend, or going back to the office after working at home, this formula is the safest thing you can give your pet for their loneliness.

Use **Lonely Cat** for kenneling, at home pet sitters, bereavement or for any type of separation anxiety affecting your pet. Use a few days before going on vacation, and all during your absence.

How does it work?

All Bottled Blessings' formulas contain water, vinegar and flower essences which are odorless and tasteless substances that work energetically on the emotional level. They work only on the emotional imbalance. If other animals drink the formula, it probably won't affect them unless they have an imbalance addressed by the essence. Changes are usually seen in three days, but may take longer if the problem is severe. Double the dose after a week if no results are seen.

How do I administer Lonely Cat?

Simply put the formula in your pet's water dish and every time your pet drinks, it is dosed. How easy is that? As always, our formulas are completely safe and without side effects regardless of dosages.

You can easily use this in combination with our other Bottled Blessings formulas for great synergistic effects. **Pet Stress Relief** is a natural combination for kenneling. Use **No Spray** to prevent unwanted behavior in cats.

- Do not use in a metal bowl. This reduces the potency of the formula.
- Use the cleanest water available to you. Pollution reduces potency.
- Distilled or reverse osmosis water is recommended
- You can give in an oral syringe, but you only need 2-3 drops in 2CC's of water

FOUNTAINS:

- Remove Carbon Cartridge
- For 1 oz Formulas : Add (3) droppers Initially and 1 dropper every day after that.
- For 4oz Formulas: Add (1 1/2) droppers initially and 1/2 dropper every day after that.

The longer you use Flower Essences, the deeper the changes. If you do not see ANY changes in 1-2 weeks with the normal dosage it is safe to double the dose.

Additional Products

Bottled Blessings' other great formulas include:

- **No Spray** – Stops feline spraying naturally.
- **Cat Groom** – Calms and soothes before grooming.
- **New Kitty** – Helps cats get along, resolves territorial issues.
- **Pet Travel** – Calms your pets when they travel.
- **Pet Stress Relief** – Reduces or eliminates stress-induced behavior.
- **Rescue Pet** – Soothes, comforts and heals neglected or abused animals.
- **No Bully** – Calms dominant or aggressive animals.

All Bottled Blessings formulas may be safely combined with one another. Bottled Blessings also makes formulas for Dogs, Birds & Horses.
