Soothe your horse for any event.

Even the most even-tempered horse can experience nervousness and become skittish in certain situations. Easy to use, **Horse Calm** provides a natural solution for stressful short-term events such as scary trail riding or going out with a new companion dog. Give your flighty horse a dose of calming support.

Horses are easily spooked creatures because they are essentially a prey animal in the wild. **Horse Calm** helps jittery nerves in new or strange situations, helping to minimize flight responses and leave you in control.

How is Horse Calm administered?

Horse Calm is administered through a spray. Simply apply along the neck and it goes to work in about 15 minutes and lasts about 2-3 hours. You can apply as much as you need for calming. Some horses are more skittish than others, and will need more than the recommended dose. As with all Bottled Blessings products, **Horse Calm** is made of all natural human grade flower essences and cannot harm your mount, regardless of dosage.

How to Use Our Formulas

Getting the Most from Bottled Blessings' Flower Essence Formulas

Directions: Start with 5 sprays to the back of the neck, wait 15 minutes before reapplying. Dosage depends on severity of emotional responses in horse. Lasts 2-3 hours. Reapply as needed.
