Have more adventures with your horse!

Whether you are transporting your horse to a breeder or a show, you know that an agitated horse can be a challenge. Keep your horse soothed and protect yourself and your trailer with the calming benefits of this special Bottled Blessings equine formula. Does not replace proper training and handling!

How is Horse Travel administered?

Horse Travel is sprayed along the neck of the horse. Use 15 to 20 minutes before loading to reduce jitters from enclosed and unfamiliar surroundings. For longer trips, dose again every 2-3 hours. Like all Bottled Blessings' formulas, **Horse Travel** will not hurt your horse in anyway, regardless of dose, and has absolutely no side effects. Horses that don't travel well may need more formula.
